

organic treats

abacá boutique resort + restaurant on The Philippine island of Cebu is so natural it's almost impossible to spot from the water. Frangipani and jacaranda flowers carpet the grounds of the lush gardens and lead to organic herb and vegetable terraces. The 30-metre infinity pool shelves into the glistening ocean and the on-site diving school will kit you out to dive deep into pristine waters. Slink from your sunlounger to the oceanfront spa or water garden cabañas to enjoy a fruity papaya body wrap and customised facial treatment, or relax with a massage in the privacy of your suite. Take a sailing trip, cookery lessons, or a picnic to Cumungi, the resort's own private deserted island, to explore swimming holes and mangroves or even stay overnight and truly get back to nature.
